 Working on both part frontend and backend designed svg animation and responsive frontend pages. rojects Car Management System React.js , Node.js :- project link Used mongodb database to store and retrieve data about cars. Added features like menu management and car operations (add, edit, delete). Implemented JWT authentication and bcrypt encryption for secure logins. Billing Management System Java , Swing GUI, JDBC :- project link Built a Java-based Windows application with Swing for customer management. Integrated iText PDF API for generating invoices and an SQL database for storage. Restaurant WebSite React.js, Node.js, Express, MongoDB :- project link Developed a web app with features like menu management and online ordering. Currently working on backend features. Certificates Web Development Bootcamp (Udemy) Database Management System Part – 1 (Infosys SpringBoard) 	– Jan 25

Technical Skills

Training/Internship

- Languages :- Java, JavaScript(basics), C++, python(basics) ٠
- Web Tools :- HTML, CSS, Node.js, React.js, SpringBoot, Hibernate •
- Database :- SQL, MySQL, PostgreSQL, MongoDB
- Developer Tools :- Git, Goole Cloud Platform, Maven •

Education

٠	Lovely Professional University, Punjab, India	2020 – 2024
	Btech(Computer Science and Engineering) — CGPA: 7.1	
	Jalandhar, Punjab	
•	Central Academy	2019
	12th with Science — Percentage: 60%	
	Chauri Chaura, Gorakhpur, Uttar Pradesh	
٠	Central Academy	2017
	10th — CGPA: 7.2	
	Chauri Chaura, Gorakhpur, Uttar Pradesh
